

REMARKS

Favorable reconsideration of this application, as presently amended and in light of the following discussion, is respectfully requested.

Claims 1-46 are currently pending. No claims have been amended herewith.

In the outstanding Office Action, the title was objected to as being nondescriptive of the claimed invention; the specification was objected to as lacking appropriate section headings; and the Abstract was objected to as not being a single paragraph.

In response to the objection to the title, the title has been amended to be more descriptive of the claimed invention. Accordingly, the objection to the title is believed to have been overcome.

In response to the objection to the Abstract, the Abstract has been amended to be a single paragraph. Accordingly, the objection to the Abstract is believed to have been overcome.

In response to the objection to the specification, the specification has been amended to include appropriate section headings. Accordingly, the objection to the specification is believed to have been overcome.

Consequently, in view of the present amendment and in light of the above discussion, the outstanding grounds for rejection are believed to have been overcome. The application as amended herewith is believed to be in condition for formal allowance. An early and favorable action to that effect is respectfully requested.

Respectfully submitted,
